

Prowise® iPRO LIFT SYSTEMS

Engage each
and every
student

Prowise iPro lift systems make your touchscreen even more flexible and accessible for all. Operating the lift with your foot or the remote control ensures your focus and attention can remain on your class. The lifts are GS and CE certified and offer height or tilt capabilities with ease. Enhance your interactive flat panel experience with an iPro lift today!

Features & Benefits:

- Use with any interactive flat panel
- Height-adjustable and tilt options available
- Control by foot or with the remote control
- High quality engineering
- Small, compact footprint

CHOOSE FROM FOUR GREAT OPTIONS!

1 WALL LIFT

Safely mount your touchscreen to the wall and enjoy easy height adjustments.

- Highly durable motorized lift
- Easily secures to a permanent wall for maximum safety and security
- Conveniently adjust height using front-facing foot pedals or the remote control

2 MOBILE LIFT

The perfect mobile lift for large format interactive flat panels.

- Highly durable, motorized lift with height-adjusting capabilities
- Safely and easily moves to any learning space
- Adjust height using the front-facing foot pedals or remote control
- Automatic breaking and safety system

3 TILT LIFT

The ultimate mobile lift for educators that desire flexibility and functionality.

- Motorized lift with height-adjusting and tilt capabilities
- Safely and easily moves to any learning space
- Adjust height using the front-facing foot pedals or remote control
- Tilt into table mode using the remote control
- Automatic breaking and safety system

4 TODDLER LIFT

The ideal, multi-functional lift for young children or students with disabilities.

- Motorized low profile lift with height and tilt capabilities
- Safely and easily moves to any learning space
- Adjust height using the front-facing foot pedals or remote control
- Tilt into table mode using the remote control
- Automatic breaking and safety system
